

Stakeholder Engagement Tool: Toward a Renewable Energy Standard

Dear Mr. Mayor, Volitalia places a strong emphasis on environmental, social and governance (ESG) initiatives. One of our focus is an extensive stakeholder engagement through sustainable and responsible business practices.

Reporting on key issues with stakeholders

As part of the Volitalia Sustainability Report, we have established engagement policies. The policies specifically regulate stakeholder and communication with stakeholders, promote transparency, establish dialogue channels, and ensure the company's responsiveness to stakeholder requests.

Stakeholder engagement in strategic and operational decisions

This document outlines the company's approach to stakeholder engagement, detailing the processes for identifying stakeholders, assessing their interests, and integrating their input into the company's decision-making process.

Key benefits

- **Enhanced Information:** Access to a centralized database containing a wealth of information and a detailed history of stakeholder relationships and interactions in a single location for easy retrieval and reference.
- **Additional Features:**
  - **Multi-Accessibility:** The platform is conveniently accessible through a mobile application, allowing stakeholders to provide real-time updates even in remote areas with limited or no internet connectivity. This ensures that data is always up to date, and it is designed to seamlessly synchronize once an internet connection is restored.
  - **Integration with Google Earth:** Integration with Google Earth for accurate mapping of stakeholder and project locations. This feature provides precise coordinates and visual representations of the area, supporting situational awareness.

# Engage

Feedback Panel: A key feature of the platform

The platform offers a secure and confidential environment for stakeholders to provide feedback on the company's performance. The feedback is collected and analyzed to identify areas for improvement and to inform the company's strategic decisions.

Key features

- **Secure and Confidential:** The platform ensures that all feedback is kept confidential and secure, protecting the identity of the stakeholders who provide input.
- **Real-time Monitoring:** The company can monitor feedback in real-time, allowing for quick response and action.
- **Integration with Other Tools:** The platform can be integrated with other business systems, such as CRM and HR, to provide a holistic view of stakeholder engagement.

Benefits

- **Improved Stakeholder Engagement:** The platform provides a convenient and accessible way for stakeholders to share their thoughts and concerns.
- **Enhanced Transparency:** The platform demonstrates the company's commitment to transparency and accountability.
- **Increased Trust:** The platform helps to build trust between the company and its stakeholders.

2024 Release: An enhanced stakeholder management tool

Key features

- **Expanded Stakeholder Data Collection:** The platform now includes a comprehensive database of stakeholder information, including contact details, interests, and influence.
- **Advanced Analytics:** The platform provides powerful analytics tools to track stakeholder sentiment, identify trends, and measure the impact of engagement activities.
- **Enhanced Reporting:** The platform offers customizable reports and dashboards to provide a clear and concise overview of stakeholder engagement performance.
