

Voltalia wins the Growth Company Award in the Energy & Greentech category

Renewable energy based electricity producer Voltalia (Euronext Paris) announces today it has just won the Growth Company Award in the Energy & Greentech category, for companies with revenues between 20 and 100 million euros.

Created in 2014 and organized by Leaders' League in collaboration with the French ministry of Economy and Finance, the award recognizes companies of every size from every business sector displaying outstanding growth while innovating, creating jobs and having social, societal and environmental commitments.

"We are very happy and proud to receive this prize rewarding all the efforts undertaken since Voltalia's creation to build up a fast-growing international group. This success goes to Voltalia's teams for all the work they have achieved, making Voltalia one of the most dynamic companies in its sector", says Marie de Lauzon, Chief Administrative officer of Voltalia.

Next on the agenda: Q2 2015 revenues to be disclosed on July 30, 2015, post trading.
